Key Facts about the Undergraduate Business Minor

Visit Rady's website for more information: <http://rady.ucsd.edu/undergrad/>

The Rady School of Management's Business Minor is designed to provide students with a breadth of understanding of business theory and a depth of ability with business practices and applications. This minor will appeal to students who envision careers that require an understanding of the basic principles and practices of business. Because of business' broad application, UCSD students with a minor in business will be well prepared to assume entry and intermediate positions in the business functions of a vast number of large and small for-profit companies, governmental agencies, non-profit organizations, and non-governmental entities. Additionally, graduates pursuing careers not directly related to formal business functions, but still impacted by business practices, will bring a much valued perspective to their initial employment.

Business Minor Requirements

To fulfill the requirements of the Business Minor, students must take five required courses and two electives. The required courses are:
