Once a Rady graduate, always a Rady graduate.

The Rady School of Management offers a unique and desirable culture influenced heavily by the tight-knit and active Rady alumni. Because San Diego is a coveted location and a life sciences and technology hotbed, many alumni are still connected, giving them an excellent opportunity to be involved with the school and share their experiences. The Rady School offers numerous resources to alumni as well, including career services, networking and connections, and ongoing educational opportunities.

San Diego: Beach and Business

Come to Southern California’s innovation hub.

To say San Diego is an ideal setting for the Rady School of Management is an understatement. As Southern California’s home to the biotech and technology industries and one of the most exciting innovation ecosystems in the nation, San Diego offers opportunities that cannot be found anywhere else. Through internships and other hands-on experience, students are able to learn the business fundamentals and apply them in real-world situations. Rady delivers access to networks via an educational and professional journey that promises to launch the next vanguard of leadership in finance— or to help you launch your own venture. Did we mention the beautiful beaches and weather?

Student Life on Campus and Beyond

There are always plenty of reasons to engage, networks and relationships than at the Rady School of Management. Between active alumni, world-class faculty, events, activities and student organizations, there are countless ways to enhance, supplement and take advantage of your education and develop specialized skills in your field of interest. Students also benefit from interactions with other departments on campus, especially the Economics and Mathematics departments and the San Diego Supercomputer Center.

WORLD CLASS FACULTY

Experts in innovation and student success.

Some of the most widely-used empirical models have been developed from the research of UC San Diego faculty. The emphasis on rigorous empirical data-driven methods differentiates the Rady School’s Master of Finance from programs specializing in financial engineering. The faculty rank among the top scholars in finance, yet are readily accessible to students.

The Rady School of Management’s Master of Finance program has earned the highly-regarded status as an official CFA Institute Affiliated University.

“"This program emphasizes quantitative methods and data science techniques, preparing students for the current needs of the profession."”

— Michael Malbon
Executive Director, Master of Finance Program

“"This program is one of the top in the country for a variety of reasons including the emphasis put on quantitative methods, empirical work and financial economics."”

— Joey Engelberg
Professor of Finance and Accounting

“"The Rady School of Management prepares graduates to tackle significant challenges facing the financial sector."”

— Jun Liu
Professor of Finance and Accounting

FINANCIAL AID

Rady School of Management students have access to a variety of programs to help defray expenses, including fellowships and student loans.

University Affiliation Program

The Rady School of Management’s Master of Finance program is a STEM-designated, CFA Institute-affiliated professional degree program designed with one objective: to prepare students for a wide range of finance-related opportunities both locally and globally. The program emphasizes training in quantitative fields, such as financial econometrics and forecasting, as well as investment portfolio analysis and risk management. One crucial characteristic distinguishing the Rady MFin from similar programs is the attention given to data science and the analysis of large data sets to maximize valuable information. The MFin is a program for students interested in making a difference and working within a data-driven environment.

The Rady School of Management is an academic partner of the Global Association of Risk Professionals (GARP) Partnership for Risk Education.
