GEOGRAPHY

“The summer internship was a cornerstone for my MBA, allowing me to learn and grow the business toolkit that I had developed within the first year. When I returned in the Fall for my second year, I was able to apply these new skills in the classroom, fine-tuning and expanding my business acumen for the professional world.”

Sarah Feldman, Class of 2015
CEO, Rady Technology Club

CORPORATE CONNECTIONS

▶▶ NETWORKING EVENTS

The Rady School of Management at UC San Diego is a valuable resource for organizations seeking top talent to meet human resource needs. Rady Graduate Career Connections works with you to increase your visibility and presence among the next generation of leaders of innovation-driven organizations.

COMPANY PRESENTATIONS

Company recruitment presentations provide an opportunity to speak to Rady graduate students about your company and career opportunities. Your company presentation may involve a panel, and we encourage you to consider including an alumnus of UC San Diego or Rady. A formal company overview is traditionally followed by student questions.

CAREER PANELS

Career panels bring professionals from a particular industry or function to educate graduate business students on career paths and career options. Industry professionals share their experience and perspective in a panel discussion followed by informal networking.

RECRUIT@RADY INTERNSHIP AND CAREER FAIR

Meet and network with Rady graduate students at our fall career fair. This career and internship fair allows for increased dialogue with our students, providing excellent exposure for your company and your hiring needs. Rady graduates have a wide range of backgrounds and experience in roles ranging from finance to marketing to operations, in diverse industries.

MEET THE FIRMS

This spring networking event allows for late-cycle hiring of Rady graduate students into internship roles or full-time positions.

INNOVATION INSPIRATION

Every spring, this event celebrates Southern California companies on INC's list of Fastest Growing Companies.

INTERNATIONAL EDUCATION WEEK – INTERNATIONAL STUDENT AND SCHOLAR EMPLOYMENT MIXER

Each fall, IEW celebrates the benefits of international education and exchange, and enhances international awareness across the UC San Diego campus.

SAN FRANCISCO/ BAY AREA TREK

Each winter, Rady arranges a San Francisco/ Bay Area Trek. Our graduate business students visit companies, learning more about the culture, competitiveness in the current economy and how innovation makes a difference to the company. The trek takes place over a two-day period, with company visits ranging from one to three hours depending on the agenda of the visit.

▶▶ HIRING OPPORTUNITIES

Rady MBAs and Master of Finance students are innovative, resourceful professionals with a unique combination of skills from both their intensive Rady education and their prior work experience.

RESUME BOOK DATABASE

Find your ideal candidates through our online resume database. Rady MBA students, Master of Finance students and alumni can be contacted through this service. To register and access the resume database, go to rady.ucsd.edu/careers/.

HireRadyMBA.ucsd.edu

This online database allows employers to post projects, internships and career positions for review by interested students and alumni, as well as search student and alumni resumes.

CREATING INTERNSHIPS AND PROJECTS

Full-time MBA and Master of Finance students are available from June to September between the two years of their academic program. Part-time internships and projects during the academic year are of interest to all full time students as well as to FlexMBA working professionals. Typically, graduate student interns are compensated based on their specific skills and experience.

“I pursued an MBA to supplement my career in science and technology. Rady created an environment that utilized my background as a backbone for my leadership development, and provided a network, where I could apply my new found acumen in the industry I desired.”

David Tamayo, Class of 2014
Business Analyst, Cymer, LLC

A SAMPLE OF PARTNER COMPANIES

Employers are interested in Rady MBAs because they show both a mastery of business and management fundamentals and a passion for innovation. The Rady focus on innovation resonates with companies across a broad spectrum – from financial services and consulting to consumer products, entertainment and energy.

“Rady provided everything that I wanted out of an MBA. The curriculum was challenging and meaningful which led to an experience that allowed me to grow as a person as well as professionally. I can honestly say that my time at Rady accelerated my career and put me on a clear path to success.”

**David Harrit, Class of 2014
Project Planner, Cymer, LLC.**

““ As we enter the second decade of the Rady School of Management, we remain focused on fostering an educational environment where innovation and business converge. We are committed to developing entrepreneurial leaders and managers who are prepared for both the current business demands and the dynamic, evolving needs of tomorrow. **””**

Robert S. Sullivan
Dean, Rady School of Management
Stanley and Pauline Foster Endowed Chair
