STUDENT LIFE ON CAMPUS AND BEYOND

Startup. Success. San Diego.

There is no better place to create lasting networks and relationships than at the Rady School of Management. Between active alumni, world-class faculty, events, activities, and student organizations, there are countless ways to enhance, supplement and take advantage of your education and develop skills in your field of interest. Student favorites include the Bay Area Trek and the U.S.-Israel Immersion, which brings students from both countries together to learn about the global economy from differing perspectives. Students also benefit from programs at the Rady Centers for Excellence, such as the California Institute for Innovation and Development, which houses the StartR Accelerator and the Rady Venture Fund, and the Center for Social Innovation and Impact.
How do you determine if a business idea is viable? Which products are worth taking to market? Is this idea promising enough to drive a company? Questions like these—and many more—are brought to life with real-world applications in Lab to Market, the signature course series in the Rady FlexWeekend MBA program. Through market research, validation, feasibility, and business case studies, students are empowered to create their own action plan and go-to-market strategy.

The Rady School of Management offers a unique and desirable culture influenced heavily by the tight-knit and active Rady alumni. Because San Diego is a coveted location and a life sciences and technology hotbed, many alumni are still connected, giving them an excellent opportunity to be involved with the school and share their experiences. The Rady School offers numerous resources to alumni as well, including career services, networking and connections, and ongoing educational opportunities.

“As Cloudbeds grows, the skills that I acquired at Rady continue to apply and I feel that I’m continuously reflecting on all of my coursework, faculty lectures, and conversations with my fellow alumni.”
